## **Policy 509: New Seasonal Connection Policy**

*Effective September 1st, 2024*

### **1. For Seasonal Accounts Disconnected for Less Than 12 Months:**

- **Reconnect Fee:** Upon reconnection, you will be charged the monthly availability fee for each month your service was disconnected.
- **Reasoning:** The availability fee is used to cover the costs associated with maintaining the right of way, replacing poles, and managing infrastructure. These costs are incurred regardless of whether the service is used year-round or seasonally. This policy ensures that all members contribute fairly to these maintenance expenses.

### **2. For Seasonal Accounts Disconnected for 12 or More Consecutive Months:**

- **Reconnect Fee:** A standard reconnect fee will apply.

This policy aims to equitably distribute maintenance costs among all members and maintain fairness in reconnect fees.

Loren Haines, General Manager
